Fusible Raw-Edge **Needle-Turn (+1/4")** **Wool Appliqué**
Hand Embroidery

Applique shapes and Layout Diagram are drawn actual size. FOR FUSIBLE APPLIQUE - REVERSE SHAPES FOR TRACING , OR REVERSE LAYOUT DIAGRAM.

FUSIBLE APPLIQUE DIRECTIONS

- Trace Templates:** Trace all shapes onto the paper side of your fusible web. Leave at least 1/4" between shapes. Label pieces by number.
- Rough Cut:** Roughly cut out around traced shapes leaving a small margin of paper around each line. *Do not cut on exact lines yet.*
- Fuse to Fabric:** Place paper shapes (web side down) onto the **wrong side** of selected fabrics. Press following manufacturer's directions.
- Precise Cut:** Cut out each piece exactly on the drawn line.
- Position & Fuse:** Peel away paper backing. Position pieces on your background fabric square using the Layout Diagram on page 2. Press with a warm iron to secure.
- Stitch Edges:** Finish edges with a decorative machine stitch, zigzag, or hand embroidery thread.

Alternative Methods:

- **Needle-Turn:** Add a 1/4" seam allowance around all template shapes when cutting.
- **Hand Embroidery:** Trace the master design directly onto background fabric using a lightbox and Frixion marking pen.
